

Request for Waiver of 1,000 Grease Interceptor

Pursuant to District Ordinance 406, The Galesburg Sanitary District requires that a 1,000 gallon grease interceptor be installed in the following food service establishment. Based upon the conditions stated below, the undersigned hereby request that the Ordinance requirements be waived and that a smaller grease interceptor device be allowed.

Food Service Establishment Owner / Operator and complete contact information

Location or Address of Establishment _____

Location Owner, if different _____

Plumbing Contractor _____

- Provide a narrative about the service provided, i.e. dine in/carry out, quantity of seating available, hours of operation, seasonal operation if applicable, anticipated number of patrons served per day, etc.
- Attach a detailed list of menu offerings.
- Provide a kitchen plan/layout, including all structures, appliances and appurtenances.
- Provide an explanation for the waiver request, unrelated to expense. These may include reasons such as location, accessibility, menu limitations, service limitations, etc.
- Provide Manufacturer, Make and Model No. of proposed grease interceptor

I hereby certify that the accompanying information is true and correct to the best of my knowledge. I further state my understanding and acknowledgment that this waiver request is based upon the stated conditions and that changes to these conditions may nullify said waiver, if granted. I accept full responsibility to notify The Galesburg Sanitary District should any of the stated conditions change.

Owner Signature

Owner Signature

The Galesburg Sanitary District hereby agrees to waive the requirements of Ordinance 406 for the installation of a 1,000-gallon grease interceptor at this location. This waiver applies only to this location, the current owners and only so long as the menu and dining selections remain as indicated herein. The District reserves the right to rescind this waiver upon change of ownership, change of scope of operations or any other factor that may lead to a degradation of the sewer system, or evidence of grease accumulation in either a main sewer or a private sewer service, all as determined by the District. An appropriately sized grease interceptor is still required at this location, to comply with the requirements of the Illinois Plumbing Code, the City of Galesburg and the Knox County Health Department regulations.
